

Pro-Pet™

Probiotic for Pets

Natural

Pro-Pet™ supports the formation of good bacteria in your pet's intestinal flora. Healthy gut flora produces B vitamins and vitamin K, which are important for all animals. It helps prevent bad breath, reduce hair loss, and reduce allergic reactions in dental health. It increases the utilization rate of the food, prevents bad odor in the stool and reduces constipation.

Pro-Pet™

Probiotic microencapsulated for use in
pet nutrition

Composition:

BACTERIAL STRAINS	
Strain name	Live Cell Concentration (CFU/ kg)
Lactobacillus plantarum MBS-LP-01	5 x 10 ¹²
Lactobacillus lactis CCM 4254	
Enterococcus faecium 10415	
Bacillus subtilis MBS BS 01	
Pediococcus acidilactici 30005	
ENZYMES (IU/kg)	
Alpha amylaze	1000
Beta xylanase	8000
Beta glucanase	5000
Protease	1000
ORGANIC ACIDS (mg/kg)	
Acetic acid	5000
Formic acid	2000
Citric acid	4000
Propionic acid	4000
MINERALS (mg/kg)	
Magnesium sulphate	800
Potassium phosphate	500
Sodium sulphate	600
Calcium chloride	200

Recommended use

Application	Unit	Species	Dosage	
			Maintenance	During treatment
Mixed in the complete meal	2 kg/ton	Dog meal	2 kg/ton	6 kg/ton
		Cat meal	2 kg/ton	4 kg/ton

KEY BENEFITS

- Supports the formation of good bacteria in pet's intestinal flora
- Beneficial bacteria produces B vitamins and vitamin K in the intestine
- Helps to prevent bad breath
- Reduce hair loss and prevent allergic reactions in dental health
- It prevents bad odour in stool and reduces constipation

Shelf-life and Storage Conditions

24 months. Keep it in a dry place at room temperature below 25 °C, avoiding the exposure to sunlight.

Heat Stability

Cells are microencapsulated. They resist up to 95 °C for 15 min.

Package size:

5 and 25kg bags.
